Dear Professor Green

I apologise for the delay in replying to your letter to Adrian Loades about Cambridgeshire's fee uplift for the forthcoming year.

We are well aware of the financial pressures that our providers are under in the current financial climate. The County Council is also having to make difficult financial choices, given the year on year reductions in central government grant and the growing numbers of people requiring social care support. This situation will continue for the coming financial year and for the foreseeable future.

However we recognise the important contribution made by our providers and we will be offering a fee uplift to all providers of 1% in the year 2014-15. You will be receiving formal notification shortly.

I realise that this increase may fall short of your expectations but I hope you understand it is the best we can offer given current circumstances.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Tracy Gurney'.
